## Ao Cliente

Os números de peça neste catálogo de peças estavam corretos quando o catálogo foi publicado. É nossa política melhorar constantemente nossas máquinas, portanto, os números de peça podem ser alterados. Ao fazer um pedido de peças, verifique os números de peça com seu concessionário.

## Unidades de Medida do SI

As dimensões métricas são fornecidas ao longo deste catálogo de peças, quando aplicável.

## Identificação de Resistência de Parafusos

Os parafusos necessários para se obter qualidade de alta-resistência equivalente a SAE grau 8 estão identificados neste catálogo pela descrição AR SAE 8 (10,9 para sistema métrico). Todos os parafusos padrão são SAE grau 5 (sistema métrico 8,8) ou inferior.

## Informações do Nº de Série do Motor

As informações sobre número de série são listadas para mostrar em quais máquinas cada peça pode ser utilizada, por exemplo:

	â	<b>Pode ser usada em todos os tipos de motor.</b>
<b>000000</b>	â	<b>A peça pode ser usada em produtos que começam com o número de série listado.</b>
	â <b>000000</b>	<b>A peça pode ser usada em produtos até (e incluindo) o número de série listado.</b>
<b>000000</b>	â <b>000000</b>	<b>A peça pode ser usada em produtos entre (e incluindo) os números de série listados.</b>

Quando XXXXXX é listado no lugar do número de série, uma alteração no número de série foi feita, porém o número de série exato não estava disponível quando o catálogo foi produzido.

Se os números de identificação dos produtos ou números de série forem necessários para requisições de garantia ou correspondência pertencentes a este produto, é extremamente importante informar todos os caracteres. Este ponto é crucial.

## Seta de Direção

As setas são utilizadas com as ilustrações para indicar a parte dianteira da unidade. As laterais “Direita” e “Esquerda” são determinadas olhando-se na direção do deslocamento de avanço da máquina.

Exceção: Para todas as peças da retroescavadeira, as laterais “Direita” e “Esquerda”, “Dianteira” e “Traseira” são determinadas quando sentado para operação da retroescavadeira.

## Ilustrações inclusas na caixa

Um número de legenda, mostrado na lista de peças, é atribuído a todas as peças inclusas nas caixas vendidas como conjunto de serviço. Uma caixa sem legenda inclui peças não atuais.

## Listas de Peças Completas

As Peças Completas estão listadas em negrito. Faça o pedido separadamente. Não inclua em pedidos de peças de reposição.

## Orientação do Motor

Os lados â Direitoâ e â Esquerdoâ são determinados com o usuário ao volante, voltado para o motor.

## Componentes John Deere Reman

As peças de serviço listadas neste catálogo se destinam ao reparo dos componentes originais do equipamento. Apesar de muitas peças de serviço poderem ser utilizadas no reparo de componentes remanufaturados, o processo de remanufatura pode alterar as peças de tal forma que as peças de serviço podem se tornar inadequadas ou inutilizáveis.
